539 Pacific Highway, Mount Colah

Sold

Perfect first home. This renovated brick home has plenty of living space inside and out. Polished floorboards in the living areas and modern kitchen makes this an easy care home. A north facing sunroom provides a great space to kick back and relax. Three very generously sized bedrooms are great for those who need their space or for those with a growing family. A double length carport provides space for cars and/or boats and trailers. The back yard is level and well protected. This corner block is over 790sqm and is located within a short distance of schools, shops, transportation and medical facilities. A marvellous investment for the future too.

Property ID: 10916197
