Why Live In Suburbia When You Can Have The Privacy And Space Of This Beautiful...

A long tree lined drive leads up to this elegant cedar and brick residence sitting comfortably on the crest of the hill within its own private 2.5 acre oasis.

There are three bedrooms, two bathrooms and a light filled open plan living area that spills out onto decks on three sides of the residence. The ground level of the residence is brick and contains a huge rumpus room/office, laundry facilities, bathroom and an oversized double garage. A cleared plateau area is ideal for veggie growing with a spring fed dam providing a permanent supply of water for irrigation.

Uki village is just 3 minutes away, while Murwillumbah is 10 minutes in the other direction.

By Appointment Only.
